PROBLEM

List your top 1-3 problems.

- People spend wasting their life away scrolling on their phone or are building habits, that will destroy their life in long-term
- Social pressure - any turn away from goal means disappointmenr - failure, this equals to burnout, toxicity, not achieving the goal and being discuraged and reluctant towards learning new habits and settings goals.
- The problem of social media - socialy considered bad and useful as a distraction - we are against this idea, you can go on social media without feeling like failure - for every task you complete you can spend time on social media
- life without organization and structure - being passive, having no knowledge/overview of your life/direction
- lack of encouragement while doing something
- mentally challenging planning process

EXISTING ALTERNATIVES

List how these problems are solved today.

Fabulous - different positioning and use case, but similar concept
Dopamine detox events/courses/pdf,...
Motivational digital products

SOLUTION

Outline a possible solution for each problem.

- Bringing structure in life with App that has the capability of being an all round time management tool tailored to the customers life and needs
- it learns from you and knows you, it keeps your life organized, it encourages you, and gives you proper guidance
- tunnel like approach - you are going in some direction, you can move from one side to another but eventually you will get to your destination.
