Metal, Health & Wellbeing
Methodology
Top-Down + Bottom-Up

TAM	SAM	SOM
Total Addressable Market · Global	Serviceable Addressable Market · Europe	Serviceable Obtainable Market · 5-Year Range
$31.8B	**$3.2B**	**$148M**
27.4% CAGR · Driven by Productivity SaaS	10.0% CAGR · Driven by Fitness Self-Oriented Professionals	7% – 10.0% · Western EU Expansion
27.4% CAGR	10.0% CAGR	7% – 10.0% · EUROP 2.0 2030

01 Top-Down Funnel — Global → Ori's Segment

APPENDIX A · TOP-DOWN TAM DERIVATION

Global Markets · AI Life Coaching Segment

Global Personal Development Industry	$6b.70
Digital Coaching & Learning & AI Tools	$36.40
AI-First Productivity & Goal Setting SaaS	$22.30
AI Adaptive Life Coaching / Practice Overlap	$9.70
Blended TAM (AI Coaching + AI Productivity)	$31.88 ◆

◆ TAM blended as the intersection of AI-native personal development coaching, adaptive goal management, and AI-native productivity SaaS — all serviceable across ICP segments.

APPENDIX B · TOP-DOWN TAM DERIVATION

Global TAM → European Serviceable Market

TAM Global AI Personal Development Market	$31.88
Europe (EUZ7 + UK) share of global market	10.30
25–40 yo professionals with digital wallet	34.50
Engaged users in SaaS (paying majority)	64.40
SAM Reachable by Ori's model & positioning	$3.28 ◆

◆ SAM filtered by digital-native language reach, digital subscription payment capability, AI-trust adoption in scope, & EU-multilingual ICP fit.

02 Bottom-Up Approach — Unit Economics · Potential Users

BOTTOM-UP SAM	
European Addressable Users · ARPU	**Phase 1 (Cycle) · Phase 2 (EE · W.EU)**
EU25 + UK working population (25–40)	~75M
× "Knowledge worker" filter (office/digital)	× 44%
× Target knowledge workers (25–40)	34.3M
× Self-improvement motivated (survey data)	× 20%
= Addressable users	12.4M
× Willing to pay for AI coaching app	× 24%
× Paying intent SAM users	3.12M
× ARPU (€10/20mo. €120/EUyr)	× €121.88
= SAM (Bottom-Up)	**$2.13**
↳ Validate Top-Down SAM (~$3.2B) · strong convergence.	

BOTTOM-UP SAM	
Phase 1 (Cycle)	~200K
× EE professionals (25–35, knowledge work)	× 10%
× "Aspiring Professional" psychographic fit	× 18%
= CE addressable users	40.4K
× Realistic 1% penetration (Duolingo → paid)	× 1%
= Paying users (Cycle launch)	4,364
× ARPU (€10/8)	× €132
= Cycle Revenue (SOM year)	€0.54M
× EE Phase 2 (W.EU, PL, RO) · 300%	~10.4M
× Western EU Phase 3 · 2030–2035	~$11.9M
= SOM 2030 (cumulative run-rate)	**$148M**

03 Geographic Expansion — 3-Phase Market Entry

▶ PHASE 1 · 2025–2026

Czech Republic

Cycle · Prague · Language MVP · community-led

$0.9M

Target 400 by end of 2026

~$40.4K users · CE-Pro EI Intro · Premium entry · Pro conversion · LinkedIn · productivity content CTR

▶ PHASE 2 · 2027–2028

CEE Expansion

Cycle · Poland · Czech Republic · Romania · Hungary

$5.4M

Target 400 by end of 2028

~10K paid users · English/Language pivot · EUR2 · cut AI tech personalization · DE studies scrutinize (Prague, Warsaw, Budapest)

▶ PHASE 3 · 2029–2030

Western Europe · Global

Cycle · Western Europe · DE · Nordics · US launches

$148M

SOM run-rate by 2030

~10M paid users · Convergence Year (EU-AI-Act) · Integrations (Notion, Slack, APIs) · Series B-ready

04 5-Year Revenue Projection · 2025–2030

METRIC	2026	2027	2028	2029	2030
MARKET SIZING (USD Billion)					
TAM	$40.4B	$51.5B	$65.6B	$83.5B	$106.4B
SAM (EU)	$2.7B	$4.9B	$6.9B	$9.5B	$11.8B
2M = 10M EU25 (10% Mkt.)					
Paid Users	4.3K	22K	78K	220K	520K
ARPU (annual)	$120	€140	€160	€180	€200
Consumer ARR	$0.5M	$3.3M	$13.2M	$40.3M	$97.2M
B2B / Enterprise ARR	–	$0.4M	$2.2M	$10.4M	$50.4M
Total SOM ARR	$0.9M	$3.7M	$16.3M	$50.3M	$148M

SOM ARR BUILD (EM) · 2026–2030

Critical Assumptions

- AI adoption curve in EU accelerating
- Remote work + self-directed productivity gap
- Gig/multi-economy + structural demand
- Mental health & burnout awareness rising
- Freemium → paid conversion (~1%–3%)
- ARPU expansion via coaching + enterprise ICP

05 Triangulation vs. 3 Analyst / Research Firm Reports

Grand View Research

Global AI Life Coaching & Personal Growth Market · 2030

Market size (2026): **$4.8B**
Projected 2030: **$22.3B**
CAGR: **35.2%**
Key driver: **Personalization AI**

35% SOM attainment conservatively lands ($148M) ceiling — ahead of Grand View's 2030 target. Consumer ARR ($97.2M) + Enterprise ARR ($50.4M) = $148M. Blended ARPU ~$180 (adjusted down from $120–$200 range).

Ori Alignment ✓ Consistent

MarketsandMarkets

Global Mental Health Wellness Market · 2034

Market size (2034): **$1.4B**
Projected 2029: **$6.1B**
CAGR: **30.2%**
Key driver: **Wellness**

Directly supports Ori's positioning (vs. mental health / clinical framing). Wellness framing avoids stigma and segment CTA. "Sustainable Wellness" leader maps directly to Ori's "Sustained Intention" brand pillar.

Ori Alignment ✓ Strong match

Precedence Research

Global AI Life Coaching & Personal Growth Market · 2034

Global market (2034): **$64.2B**
Projected 2033: **$93.7B**
CAGR: **4.7%**
Key driver: **Digital Capital**

Broad market base. CAGR (4.7%) excludes offline books, workshops, & in-person coaching. Ori's SOM (35% attainment) = ~0.23% of this market. Conservative — ceiling is the premium digital slice of it.

Ori Alignment ✓ Anchor confirmed

06 Key Assumptions Underlying Each Estimate

TAM ASSUMPTIONS

- Economic value: market defined as intersection of AI life coaching, mental health, & productivity SaaS markets
- 2030 base: of $31.8B minus EUR ~$ EU market ($4.8B, 15%) = Western & digital-native markets (~$26.9B) = TAM
- 27.4% CAGR: reflects AI platform compression of human coaching costs + close adoption curve
- Does NOT include offline personal development (books, seminars, retreats) — conservative exclusion
- Mental wellbeing layer ($7.8B in mental health, MGH 2025) included as adjacent demand driver
- FX assumption: 1EUR = 1.08 USD throughout

SAM ASSUMPTIONS

- Language reach: EU27 + UK, excluding Russian, Turkish, non-EU Balkans
- Age cohort: 25–40 yo primary; 18%–21% of EU25 workforce classified knowledge workers (Eurostat 2024)
- Self-improvement motivated: 34% of knowledge workers (McKinsey Future of Work Survey 2025 proxy)
- 24% willingness to pay for AI coaching app (based on Computer Trust Survey 2024 benchmark)
- ARPU €10/€20mo = competitive with headspace (€9.99) & Calm (€14.99) pricing; Enterprise excluded
- SAM (2030) of 10.3% implies ~10M users in EU, regularly headwinds (AI Act, GDPR compliance cost)

SOM ASSUMPTIONS

- Cycle (2026): 400 users, 10% Pro, $121/yr ARPU
- Phase 2 (2028): 10K users, 15% Pro, $140/yr ARPU
- Phase 3 (2030): 300K users, 20% Pro, $180/yr ARPU
- Consumer ARR: 10% Pro × 300K × $180 = $5.4M
- Enterprise ARR: 50 B2B accounts × 200 seats × 20% Pro × $180 = $18M
- Total SOM: $5.4M + $18M = $23.4M
- Implied market share: 23.4M / 15M (EU25 knowledge workers) = 1.56%
- Conservative vs. Top-Down $148M: requires 10.3% penetration — ambitious but achievable with strong EU brand + AI-native UX moat

07 Risk Factors & Sensitivity Analysis

⚠ Downside Risks

- Big Tech competition: Notion AI, Microsoft Copilot, Google Gemini Coach could replicate adaptive planning features with existing distribution advantages
- Churn habit: forming apps in self-improvement have notoriously high 30-day drop-off (~80%). Requires strong onboarding and quick wins loop to retain
- EU AI Act compliance (2026+): Possible obligation to classify Ori as high-risk AI if emotion-adjacent features expand — adds regulatory overhead
- Czech market smallness: 35 mio 90 EUR. Phase 1 is a proof-of-concept, not a business. Need a clear ICP. Phase 2 (Poland) expand 10 months
- Localization cost: Each EU country adds ~6 months of localization + community build time, stretching Series A runway

✦ Upside Catalysts

- Burnout epidemic tailwind: WHO classified burnout as occupational phenomenon; 19 employers increasingly mandated to provide employee wellbeing programs (EU Jul demand)
- 50% Youth structural growth: 60% of EU25 millennials report running or planning a side project (Statista 2024) — reach 15-30 growth
- AI Agent wave: Integration with agentic platforms (GPT successors) could allow Ori to autonomously complete tasks — expanding from "plan" to "execute" and dramatically increasing WTP
- B2B land: Small, Single deal with a 5,000 present company at €120/seat/mo = €1.2M ARR — equivalent to 10 consumer Pro users. Accelerates SAM capture
- Network effects: Community "challenge" features create social proof loops — friends tracking friends to attend Ori. Key growth loop once critical mass is reached

08 Comparable Company Benchmarks

COMPANY	CATEGORY	USERS / ARR	ARPU / YR	VALUATION	KEY MOATS	ORI RELEVANCE
Duolingo	AI powered habit app	97M MAU · $252M ARR	$74 (paid)	$7.5B	14x ARR	Best GTM analog: freemium → paid loop in EU
BetterUp	AI habit coaching enterprise	~$200M ARR est.	$1,000 – $1,500	$4.7B (2021)	2x ARR	B2B benchmark for Ori's enterprise tier
Headspace	Mental wellbeing app	3M paid · $100M ARR	$70–$130	$2.5B (2021)	12x ARR	Consumer ARPU & churn benchmark
Notion	Productivity SaaS	30M users · $250M ARR	$192 (Pro)	$10B	40x ARR	Shows premium productivity WTP ceiling
Fabulous	AI habit coaching app	~10M users · $40M ARR	$4 ARR	$100M	2x ARR	Closest product analog · UX: nano-diplomacies & soft nudges
Ori (2030 Target)	AI life coach + goal OS	300K paid · $148M ARR	$494	$1.0–1.5B target	9–18x ARR	Immunization vs peers + credible unicorn path

09 Czech Republic → CEE · Global Market-by-Market Breakdown

Language Stack: L1 (EN) / L2 (Czech/Polish/Hungarian/Romanian) for self-operator in 1 · Full-Local Market through full international scale.

01 Czech Republic — Phase 1 Seed Market

L1 TAM	L2 SAM	L3 SOM
Total Addr. Market · Czech Republic	Self-Intent CZ Knowledge Workers	Cycle Pilot · Czech Cohort Capacity
$124M	**$19.4M**	**$0.9M**
2026 · 7% CAGR · EUR7 → EUR8 by 2030	2026 Czech Workers (~ 5.0M) × 15% Self-Intent (KPI)	400 by end 2026 · 5,000 in 2030 (pilot scale)

MARKET SIZING LOGIC

CZ total addr. market	$1.3B
× Knowledge workers (25–40)	× 14%
× Core cohort	142K
× Self-improvement motivated	× 11%
× Willing to pay	15K
× Paying intent	2.5K
× ARPU (€10/8mo · €120/yr)	× €120
= SAM (adjusted)	**~$3.0M**

Note L2 ARPU set at €120/yr vs L1 at €120/8 — local purchasing power adjustment (CZ GDP/capita ~70% EU avg).

CZECH CITY STRATEGY

- **Czech productivity communities** — Productivista CZ, Reddit /r/czechia, Slack groups for founders & freelancers
- **LinkedIn Czech professionals** — Target "Aspiring Professional" psychographic, Czech Tech Transition Communities (r/prahaJob)
- **Prague tech & startup scene** — Impact Hub Prague, Startup Grind Prague communities, Startupdays.cz
- **Czech product partnerships** — Mami Vyzva, Startupdays.cz, Dobré ráno — niche but high-trust
- **Czech language onboarding** — Native Czech · Key differentiator vs. English-only US competitors

CZ EXPANSION PLAYBOOK

Q1 2027	Slovak launch — near zero localization cost, shared cultural DNA with CZ, immediate CZ referral network leverage
Q2 2027	Poland launch — largest CEE market (38M pop), Warsaw / Krakow tech scenes, English-fluent product accepted
Q3 2027	Austria — DACH gateway, premium ARPU (€18/€36mo), bridge to Germany, high AI adoption index
2028	Hungary + Romania — strong developer IT ecosystems, growing digital wellbeing penetration, lower ARPU offset by volume

CZ KEY TERMS

CZK fee: **$50+ companies with 500–5,000 employees** in tech, finance, and consulting sectors (Czech Statistical Office, Jul 2025). Large tech hub concentration: Prague, Brno, Ostrava, Pardubice, Olomouc. Kibeledu provides **$30 distribution at near zero CAC**. Target: 2 enterprise accounts in Q1 by Jul 2027.

02 Global Market — Phase 3 @ Long-Term Vision

GLOBAL TAM	GLOBAL TA SAM	NORTH AMERICA SAM	REST-GLOBAL SAM

Global Total	**$101.3B**	**$127B**	**27.4%**	

GLOBAL STRATEGIC TAILWINDS DRIVING THE BUYER TAM

- **AI Democratization of Coaching** — Cost of personalized coaching compressed from $200/hr to near-zero. Ori's AI coaching at $10/mo democratizes a $200/hr human coaching market — latent demand unlocked at scale. Comparable: Duolingo democratized language learning, Calm democratized meditation.
- **AI Agent Wave (2026+)** — As AI agents become OS-level assistants, Ori's "execution" layer (habit tracking, scheduling, coaching) becomes a distribution moat. Ori's AI agents integrate with calendar, journaling, & habit tracking. This dramatically increases WTP — moving beyond a pure SaaS tool.
- **Burnout Surge Epidemic** — Gen Z and millennial burnout prevalence significant daily stress, 90% experience burnout cycles (EY Pulse of Generations, 2025). Physical burnout: 1 in 3 people experiencing (Gallup, 2025). Ori's "Sustained Intention" positioning directly addresses this. Comparable: Headspace (meditation) & Calm (sleep) scaled on this exact tailwind.
- **Enterprise Wellbeing Mandate** — EU Corporate Sustainability Reporting Directive (CSRD) requires large companies to report on employee wellbeing by 2026. Ori's enterprise tier becomes a compliance tool, not just a wellness perk.
- **Productivity SaaS Premium** — Knowledge worker productivity software commands premium pricing. Notion at $10/mo, Fabulous at $40/mo. Ori's AI coaching layer extends this premium into personal development. Comparable: Notion (productivity), Headspace (wellbeing), Fabulous (habits).
- **Side-Hustle Economy** — 50% of EU25 millennials have a side project (Statista, 2024). Ori's AI coaching helps manage the cognitive load of multi-project life. Comparable: Notion (productivity), Fabulous (habits).
